Needs and challenges of the BE-Alert project

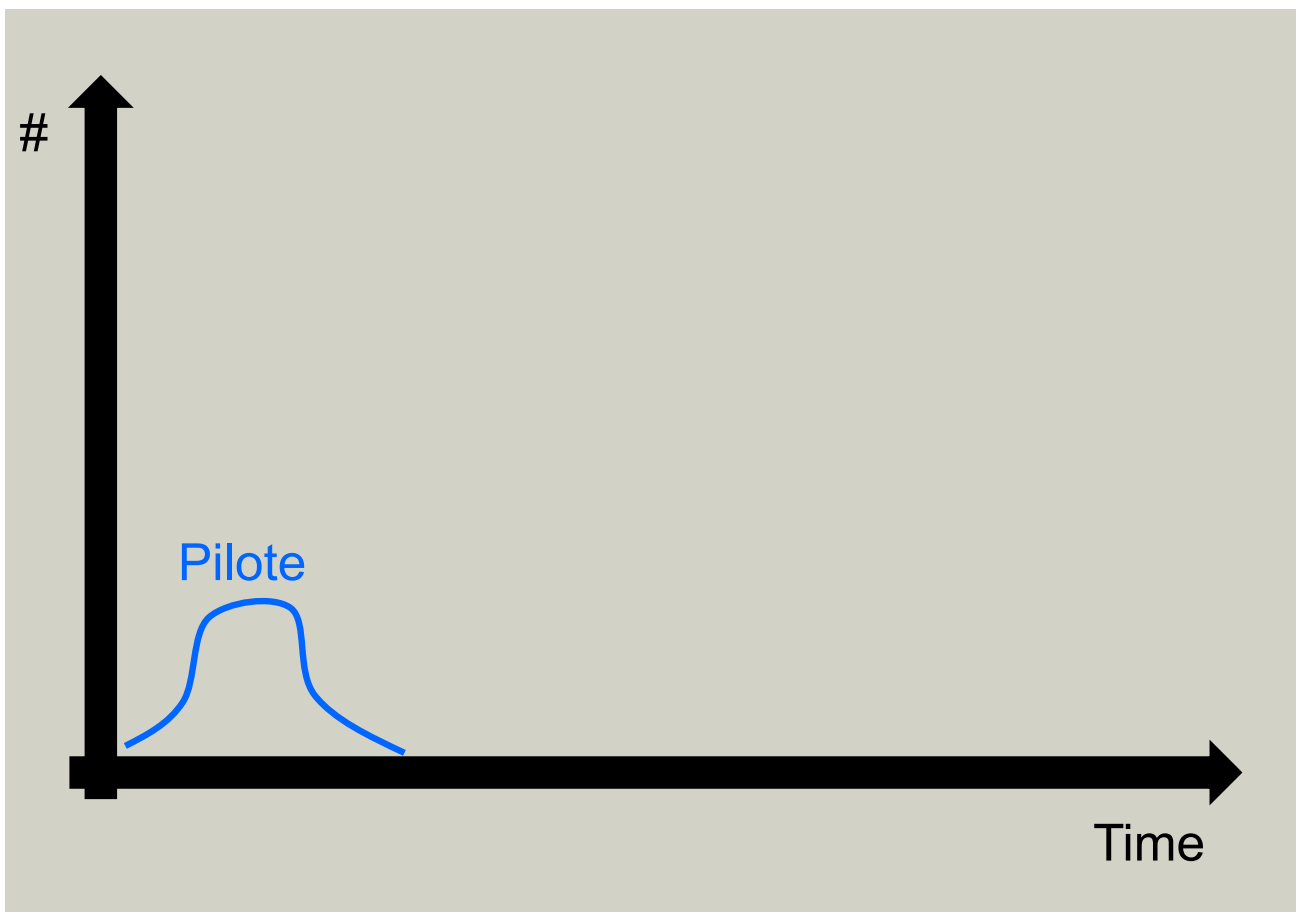

► Public Warning

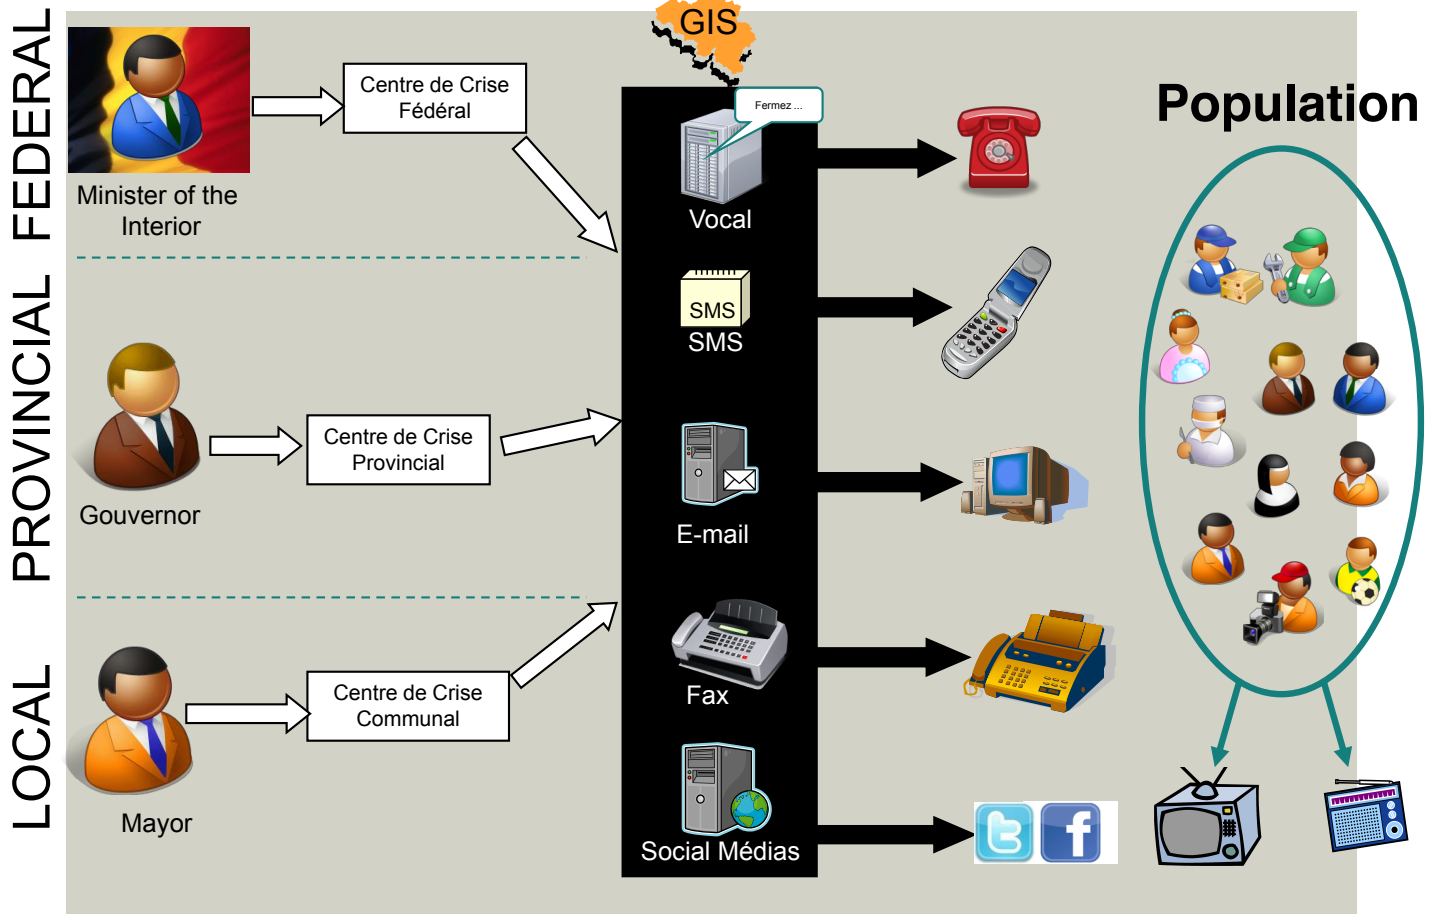

► Public Warning System

► **.bealert**))) **Pilote**

► .bealert,)) Pilote

► .bealert))) Interface Pilote

THALES

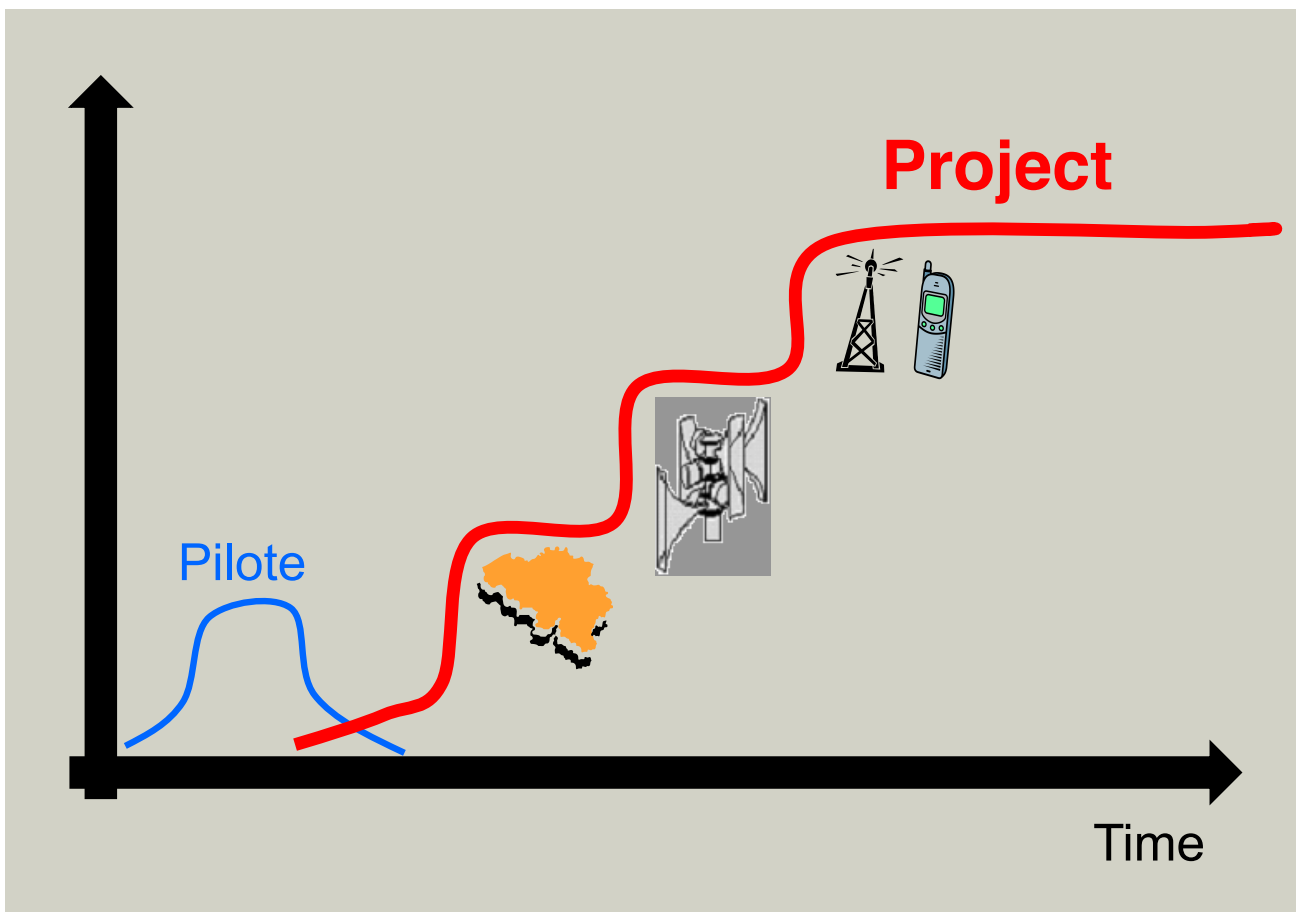

The screenshot displays the UMS Population Alert System interface. The main window shows a map of the Oslo region with a red polygon highlighting a specific area. A label 'New alert - part 0' is visible on the map. To the right of the map is a control panel for creating alerts, including a 'New alert - part 0' button, a search bar, and a table for defining alert parameters.

Private	Company
- FMS	- FMS
- SMS	- SMS

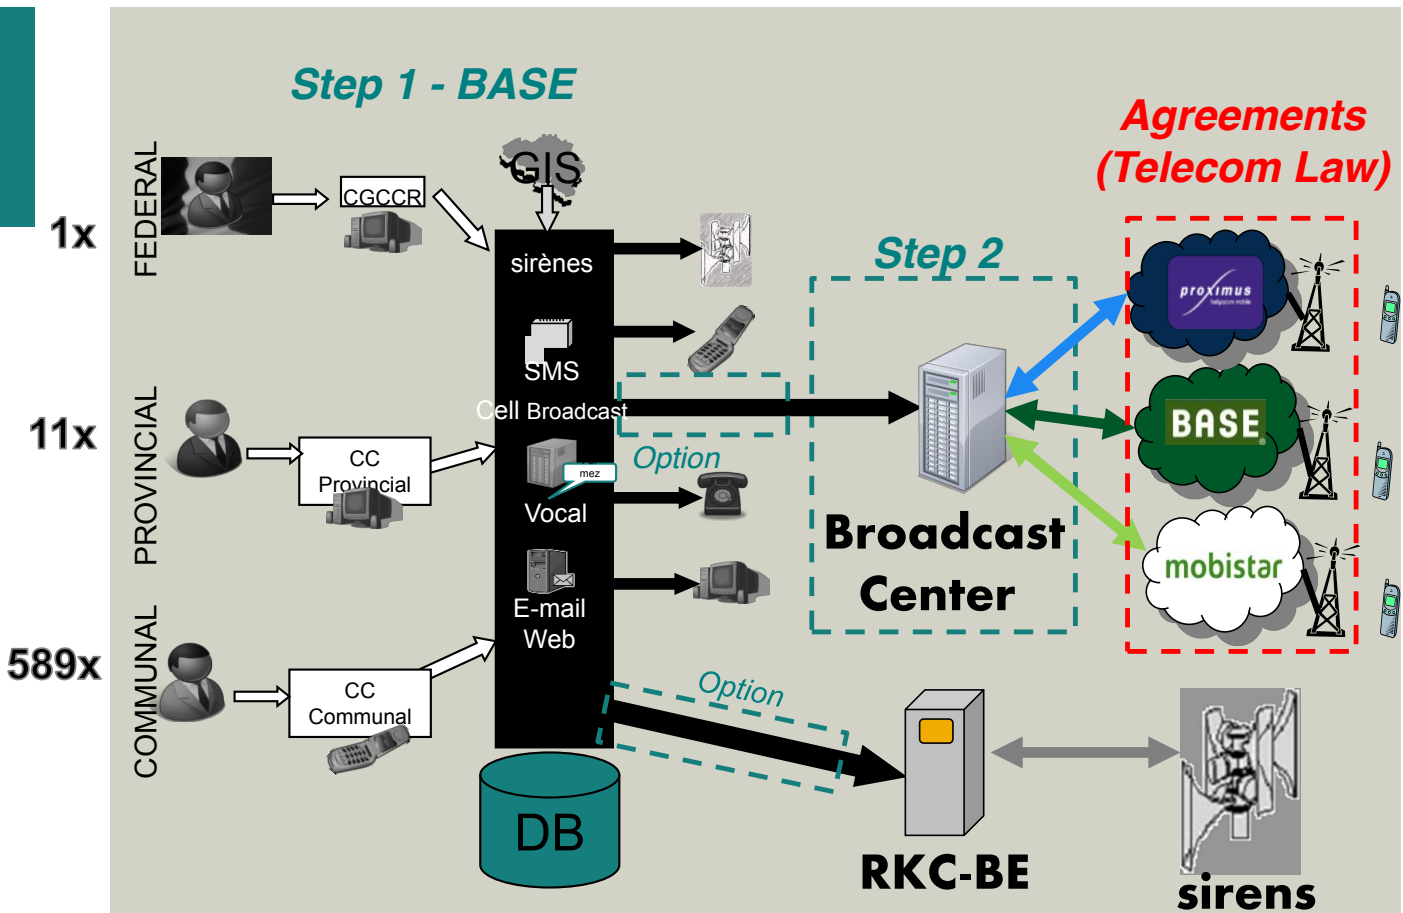

The interface also includes a menu bar (File, Navigation, View, Settings, Status, PARM, Departments, Help) and a toolbar (Pan, Zoom, Home, Search, House Editor). The system tray at the bottom shows the date and time: 10:09 23/08/2013.

► Pilote vs Project (steps)

► Steps : Base + Broadcast + Sirens

Step 1 - BASE

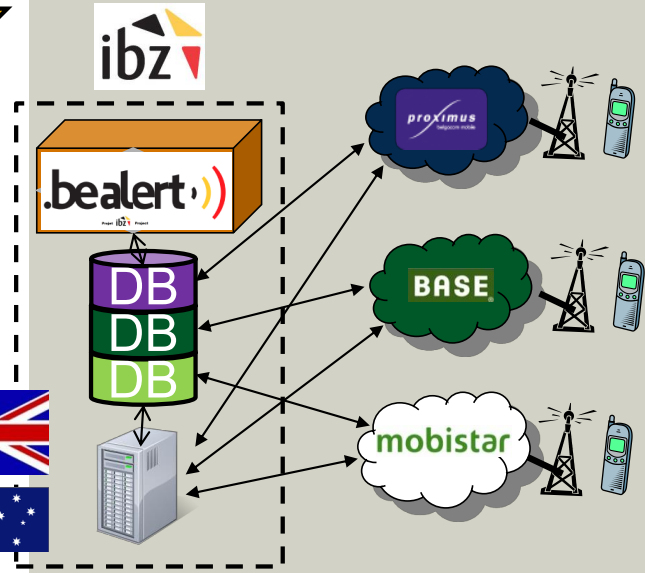

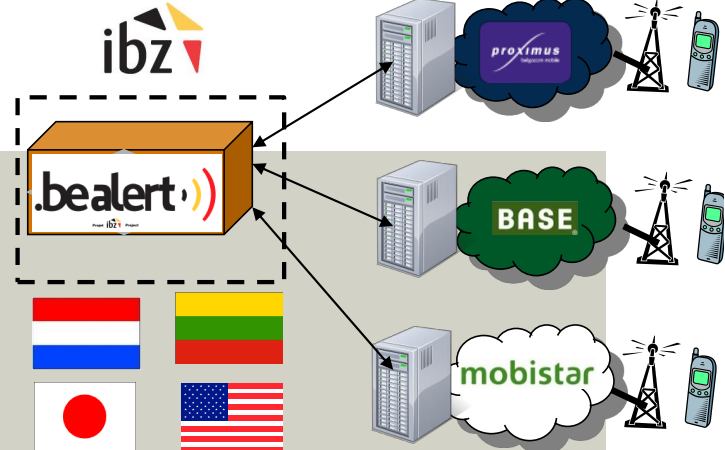

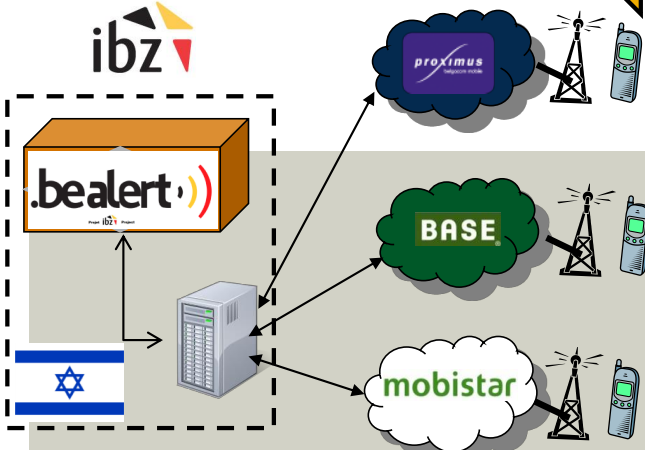

CENTRALISED

DECENTRALISED

CB Service

SMS Service

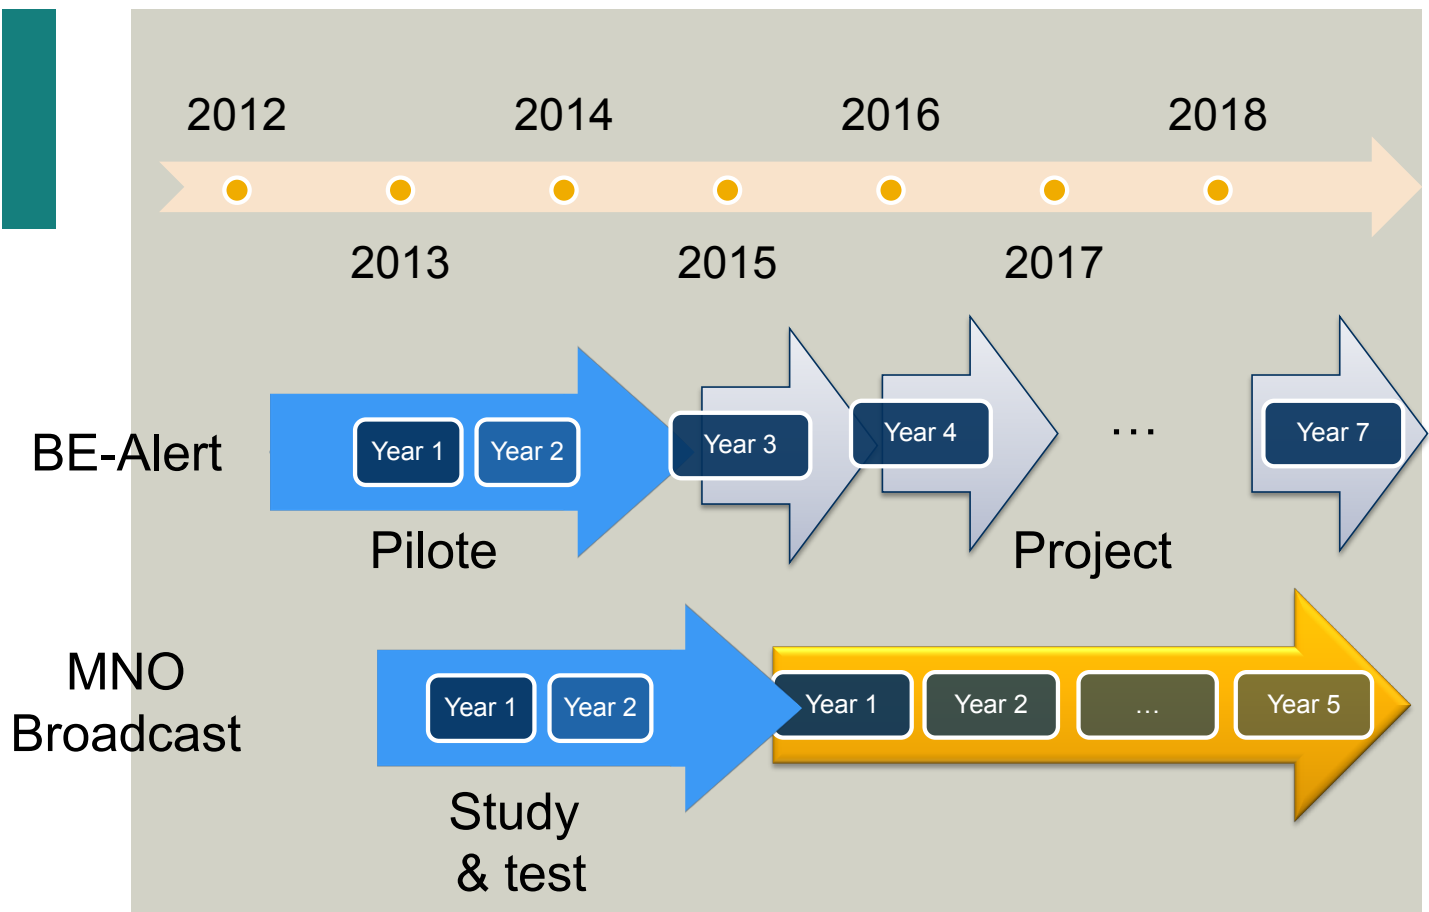

CONSULTING

- 3 MNO : PXS, M*, Base
- 1 Full MVNO : Telenet
- 2 Forum : GOF + MMF

BIPT → Telecom Law
